southwest winds have muddled the water and tides have been exceptionally high. Should be better by next week.

Have heard of some perch and trout being caught in lakes and ponds. However, the fish are not as plentiful as they were in the past. The water is still in the clear. Fish right along the bank with a small cork and the hook about 2 feet deep. Worms and dead bait will do the trick. If fishing from a boat, just let the boat drift and throw the bait ahead of the skiff. This is called bobbing and produces good results. Let the cork lie still, moving occasionally.

Do you know that water covers three-fourths of the earth's surface, and the good Lord put plenty of fish in those waters for all. Don't be selfish, tell others where you catch them, there will be plenty left.

Caught an ice box full of green trout and perch last Saturday. Of course we know that when the weather is hot, fish strike better in the early morning and late afternoon, but this time of the year they can be caught all during the day. The water is still on the cool side.

Have noticed that Lake Runners and Sac-A-Lak are becoming more plentiful especially in Louisiana. They are much larger and put up a good fight. Caught several over the weekend.

Latest reports are that red fish and speckle trout are being

caught in the Leeville and Grand Lake area. For a real fishing trip go to that section, it's worth while.

Eddie Marquez says that he is getting the floundering feeling. Going to take a week off said Eddie when they get right. Won't be long now.

Hal Wagner and Lew Williams are raring to go fishing. They both love to fish but just can't get the time said Hal.

Johnny Miller known as the "Barber on Highway 90," enjoys all kinds of fishing. He is getting ready to go and the fish had better look out. He is an old timer at the game and knows how to get them.

Mississippi fishermen when fishing in Louisiana must have a Louisiana license. The game wardens are on the loose. It pays to be safe. However, Mississippi fishermen can fish both sides of East Pearl River but can't go in Louisiana territory.

Among those making large catches of green trout and perch over the weekend were Alden Mauffray, Joe Kern, Perry Quintini, Al Mercer, August and Nicky Rauxet, Pat Garcia and Raoul Telhard.

Teddy Stechmann, Scoutmaster and the Boy Scouts of troop 217 had a wonderful camping trip at Pine Hills over the weekend. Some committeemen were in attendance.

O. P. Adams and Johnny Scalfide, Sr., caught some green trout

and perch last week.

Charles M. Cumb besides being a swell guy and bartender at Schwegmann's Gentilly Store is also a good fisherman. Charley says he goes on every occasion and usually gets his share. See you later Charley.

Better come go with us. Earl Hoffman and H. J. Thomas are ardent fishermen and enjoy any old kind of fishing. According to them, You can see them out most any time.

According to an article in the Times-Picayune, the longest fight on record was 110 rounds fought in New Orleans 71 years ago. It was a draw.

Social Security

How much do I have to earn from my business before I have to pay social security self-employment tax?

A. If you clear \$400 or more from your business you must pay. That is, you are required to file a self-employment tax return and pay the tax.

Q. If I clear less than \$400 in my business, can I pay the tax and get social security credit?

A. No, you must clear at least \$400 from your business after expenses. If you clear under \$400 you are not allowed to pay the self-employment tax.

Q. I was 65 last year. In October, November, and December, I worked only part time, making \$85.00 each month. Could I draw checks for these months?

A. Yes, regardless of your total yearly earnings, you can draw social security checks for any month you earn \$100 or less in wages.

Q. My son Billie will be 18 in May of this year. However, he still has one year of high school left. Is it possible to continue receiving his social security benefits until he finishes high school?

A. No, you will not be able to

receive Billie's social security benefits after he becomes 18. The special security benefits end the month before a child becomes 18 whether or not he is still in school.

Q. I have been getting social security benefits while having my only son in my care. I am only 45 years old and my son is 17 years old and he is now away in the Army. Do I have to report this, and would my social security be terminated?

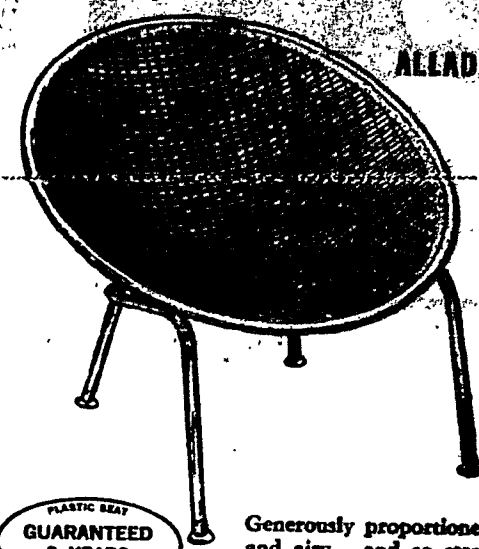

A. Yes. Since you and your child are not living together and you do not exercise parental control and responsibility, you are not entitled to social security benefits for the months that he is not in your care. However, your son's entitlement to monthly benefits will not terminate and he would be eligible to receive his checks for those months in which he does not earn more than \$100 in wages nor render substantial services in self-employment.

Q. I am a widow with 3 children under 18. If I remarry, will I lose my social security benefits?

A. Yes. A widow who remarries generally loses all entitlement to payments for herself from her deceased husband's account. There are some exceptions, but this is generally the case. However, if her later marriage ends with the death of the husband and she is not entitled to social security payments on his account, she might again become entitled to payments on her first husband's account, providing she still has in her care a child who is entitled to benefits.

THE Twenty-Third PSALM

You've got to have your arms around a warm, wooly, wobbly lamb before the real meaning of the Twenty-third Psalm grips you.

You begin to realize how awkward, bewildered, helpless a lamb really is.

David wasn't merely singing of the Lord's faithfulness. He was confessing his own helplessness!

The key to religious faith is not simply the discovery of God's power. It is the discovery of our own need.

The Lord is OUR Shepherd.

- 1 The Lord is my shepherd, I shall not want;
- 2 he makes me lie down in green pastures. He leads me beside still waters;
- 3 he restores my soul. He leads me in paths of righteousness for his name's sake.
- 4 Even though I walk through the valley of the shadow of death, I fear not evil;

for thou art with me; thy rod and thy staff, they comfort me.

5 Thou preparest a table before me in the presence of my enemies; thou anointest my head with oil, my cup overflows.

6 Surely goodness and mercy shall follow me all the days of my life; and I shall dwell in the house of the Lord for ever.

TURN TO GARDENING FOR AND PROFIT

Roses, holly and other plants are emerging from their hibernation ready to tackle the job of spring gardening. One of the best ways to make a profit is to grow plants in the home garden. 1964 FEED GRAIN PROGRAM SIGNUP REPORTED

As of March 27, 1964, farmers in Hancock County had signed up for the 1964 feed grain program. The program is a joint effort of the federal government and the state of Mississippi. It is designed to provide farmers with a guaranteed market for their feed grain. The program is a joint effort of the federal government and the state of Mississippi. It is designed to provide farmers with a guaranteed market for their feed grain.

The forms listing intended diversion show 1652 acres to be diverted from the production of corn. The diversion is from base acreage (1959-60 average plantings) of acres on the signed-up farms. Estimated total payments amount to \$43,283.00, not including price support payments to be made this fall.

National program totals through March 13 show 912,146 farms signed up to divert 20,897,400 acres from base acreage of 44,413,500 acres. Estimated diversion payments on farms signed up amount to \$687,225.60. This total does not include price support payments to be made this fall to program participants.

The 812,146 farm signups for the 1964 feed grain diversion program compares with 642,835 farms enrolled at the end of the first five weeks in the 1963 signup. The 20.9 million acres signed up for diversion in 1964 compare with 13.1 million acres signed up during the similar period for 1963.

Total participation signups in the 1963 program was 1.2 million farms, with signed diversion of 28.7 million acres of feed grain cropland. Actual diversion was 24.5 million acres.

Mr. Shaw said that the goal of the feed grain program is to bring production into line with demand, to reduce excessive stocks, and to cut government costs. Farmers help achieve this goal by voluntarily diverting feed grain acreage to conserving uses. They thus qualify for acreage diversion payments, price support payments, and regular price support loans.

Members of the Mississippi legislature, other state officials and their families, who visit the Coast April 10 and 11, are in for a variety of tours, cocktail parties and dinners.

The schedule for the weekend was announced today by Anthony V. Ragusin, chairman of the arrangements committee, and Sam K. Williams, secretary-treasurer. Boarding buses in Jackson at 9 a. m. April 10, the guests are scheduled to reach their first point of interest at 1 p. m., when they will tour the NASA Mississippi Testing Site in Hancock County.

They will complete the tour and arrive at the Bay-Waveland Yacht Club by 1:30 where they will be guests at a luncheon. Following lunch, the tour will continue to Pass Christian, where at 3 p. m. the Industrial Park and Seaway in that area will be pointed out.

Arriving in Gulfport at 3:30 p. m., a visit to the Gulfport State Port Authority is in store for the guests. They will have an opportunity to view the new 2 1/2 million dollar banana terminal which will be in operation at the time.

Continuing on Highway 90, the tour will arrive at the Biloxi at 4:30 during the afternoon, in time to check into the Buena Vista Hotel before a refreshment hour at 6:30, followed by a Seaford Jamboree at 7:30 in the hotel's Hurricane Room.

Guests will then have a free schedule until Saturday at 10 a. m., when they will board the yacht, Sundown, for a tour of the Seaway and Industrial Parks on the Bay of Biloxi and north of Gulfport.

The boat trip will last about five hours, and the guests will have time for a rest before the next event, a reception in the Lotus Room of the Buena Vista. Ragusin and Williams advised that lunches would be served aboard the Sundown.

A dinner, the last event of the junket, will follow the reception, beginning at 7:30 in the Hurricane Room of the Buena Vista.

MEASURES INTRODUCED IN HOUSE

JACKSON, Miss., Rep. George Swindoll of Calhoun County and 27 other representatives this week introduced a resolution calling for the final adjournment of the legislature April 18.

A companion resolution by the same group called for cutting off financial or local and private measures and bill offered by special committees, on April 3. Both resolutions went to the rules committee.

Such resolutions usually move to try to speed up the work of the session so it can adjourn. There appeared little likelihood of such an early adjournment.

Rep. Thompson McClellan of Clay introduced a bill to make male voters eligible for jury duty. Because some counties had no Negro voters, the list of those eligible for jury duty was broadened in 1962 to permit non-voters to serve as jurors.

The state had several criminal convictions reversed because Negroes were available for jury duty to try Negro defendants.

Rep. Russell Davis of Hinds introduced a bill to increase from \$100 to \$200 the annual privilege tax on travel bureaus and similar agencies. It also would increase the tax for each county from \$25 to \$50.

JACKSON, Miss., Rep. Roy Strickland of Stone County said this week his house elections committee would begin an immediate study of a series of election law revision bills which passed the senate.

Strickland said he would put the bills before his committee as soon as they arrived from the senate and that he anticipated getting the measures onto the floor as soon as possible.

He said he would introduce House versions of the four revision bills which did not win senate approval. The four included a bill dealing with a requirement that those who are eligible for poll tax exemptions must personally get exemptions renewed annually.

They also included three bills on which the senate deferred action. These dealt with showing receipts or exemptions at voting places, procedures for naming registrars and legal residency after moves.

Strickland predicted the House "will thrash them out" and that the bills would stir up considerable House controversy before winning approval.

AGE FOR INDUCTION OF DRAFT SET AT 22

"The age at which Selective Service registrants of Mississippi will be issued a call for induction into the armed forces under the present operation is approximately twenty-two years," Colonel C. S. Sanders Jr., State Director of Selective Service for Mississippi announced today. "Although these registrants will be called for examination earlier, the age for induction has not been lowered," the State Director continued. He stated that only delinquents, not serving satisfactorily who are inducted at a younger age.

Colonel Sanders also stated that beginning July 1, 1964, eighteen year old registrants will be examined to determine their qualifications for the armed forces. He said: "The Selective Service System has been called upon by President Johnson to determine the physical and mental qualifications of registrants at this stage in order that steps may be taken for corrective measures at an earlier age." He emphasized the old registrant will not change the present system of induction for service into the armed forces. He wants it clearly understood that the present system will be continued for induction of 1-A acceptable registrants in order of their dates of birth, with the oldest being called first.

It has always been permissible under the law to classify and examine a registrant as soon as practicable after he registers with the Selective Service System at the age of eighteen. "However," Colonel Sanders said, "it has previously been the state policy not to classify a registrant until after his nineteenth date of birth and not to examine him until his induction is imminent."

The State Director said that those who are not in school and are otherwise available will receive the armed forces physical examination as a preliminary step in the program for the conservation of manpower. "This means," Colonel Sanders said, "that a registrant while in school or who submits evidence to his local board of having been accepted to enter school will not be given the physical examination." This also applies to registrants in a deferred class or who are married and not eligible for induction. The married registrants with no children are usually in Class 1-A Not Available.

In summarizing the future operation, Colonel Sanders said: "The law requires a young man to register within five days after he reaches his eighteenth date of birth. At this time he will be given a classification questionnaire and based on information contained therein his local board will place him in the lowest class for which he is determined to be eligible. If this class is Class 1-A, then this is the registrant who will receive the armed forces physical examination."

COAST TOUR PLANNED FOR LEGISLATURE

Members of the Mississippi legislature, other state officials and their families, who visit the Coast April 10 and 11, are in for a variety of tours, cocktail parties and dinners.

The schedule for the weekend was announced today by Anthony V. Ragusin, chairman of the arrangements committee, and Sam K. Williams, secretary-treasurer. Boarding buses in Jackson at 9 a. m. April 10, the guests are scheduled to reach their first point of interest at 1 p. m., when they will tour the NASA Mississippi Testing Site in Hancock County.

They will complete the tour and arrive at the Bay-Waveland Yacht Club by 1:30 where they will be guests at a luncheon. Following lunch, the tour will continue to Pass Christian, where at 3 p. m. the Industrial Park and Seaway in that area will be pointed out.

Arriving in Gulfport at 3:30 p. m., a visit to the Gulfport State Port Authority is in store for the guests. They will have an opportunity to view the new 2 1/2 million dollar banana terminal which will be in operation at the time.

Continuing on Highway 90, the tour will arrive at the Biloxi at 4:30 during the afternoon, in time to check into the Buena Vista Hotel before a refreshment hour at 6:30, followed by a Seaford Jamboree at 7:30 in the hotel's Hurricane Room.

Guests will then have a free schedule until Saturday at 10 a. m., when they will board the yacht, Sundown, for a tour of the Seaway and Industrial Parks on the Bay of Biloxi and north of Gulfport.

The boat trip will last about five hours, and the guests will have time for a rest before the next event, a reception in the Lotus Room of the Buena Vista. Ragusin and Williams advised that lunches would be served aboard the Sundown.

A dinner, the last event of the junket, will follow the reception, beginning at 7:30 in the Hurricane Room of the Buena Vista.
